"There Will Come Soft Rains" by Ray BradburyIn this classic story by science-fiction author Ray Bradbury, Earth has been destroyed by war and no one lives on it anymore. Still, the robots and the machines continue to function and serve human beings who have long ago died. The title is taken from a poem that describes how nature will continue its work long after humanity is gone. But in this story, we see that nature plays a supporting role and the machines are the ones who have taken its place.They continue their work without any human or natural assistance. This shows how technology has replaced nature in our lives and how it can both destroy us and carry on without humanity itself. 16. "Orientation" by Daniel OrozcoThis is a humorous story in which the speaker explains the office policies to a new employee while gossiping about the staff. It's extremely easy to read, as the sentences are short and the vocabulary is simple.Many working English learners will relate to this story, as it explains the silly, nonsensical moments of modern office life. Modern workplaces often feel like theaters where we pretend to work rather than get actual work done. The speaker exposes this reality that few would ever admit to.He over-explains everything from the view out the office window to the intimate details of everyone's life—from the overweight loner to the secret serial killer. It talks about the things that go unsaid, how people at the office come about the deep secrets of our home life, but don't discuss them. 17. "Paper Menagerie" by Ken LiuJack's mother can make paper animals come to life. In the beginning, Jack loves them and spends hours with his mom. But once he grows up, his mother's inability to speak English keeps Jack from talking to her.When his mother tries to talk to him through her creations, he kills them and collects them in a box. "The Missing Mail" by R.K. NarayanThaappa is the village mailman, who is good friends with Ramanujam and his family. He learns about a failed marriage and helps Ramanujam's daughter get engaged to a suitable match.Just before the wedding, Thaappa receives a tragic letter about Ramanujam's brother. To spare them heartache, he decides not to deliver the letter.The story explores the idea that despite the best of intentions, our actions can cause more harm to our loved ones than we ever intended. If you like this and want to read more by R.K. Narayan, check out the other stories in the author's "Malgudi Days" short story collection. 19. "Harrison Bergeron" by Kurt VonnegutThe year is 2081, and everyone has been made equal by force. Every person who is superior in any way has been handicapped (something that prevents a person's full use of their abilities) by the government. Intelligent people are distracted by disturbing noises. Good dancers have to wear weights so that they don't dance too well. Attractive people wear ugly masks so they don't look better than anyone else.However, one day there is a rebellion, and everything changes for a brief instant. Technology is always supposed to make us better. But in this case, we see that it can be used to disable our talents. Moreover, the writer shows us how the mindless use of a single value like equality can create more suffering for everyone. 20. "The School" by Donald BarthelmeAt first, the trees die. Then the snakes, followed by the tropical fish. Then the class gets a puppy, and... well, you can see where things are going.And that's just the beginning of the series of unfortunate events at the school in this short story, narrated by a teacher. The story is absurd (ridiculous to the point of being silly), even though the topic is serious. By the end, the kids start asking difficult questions about death that the adults don't quite know how to answer.This story leaves a lot of things unsaid, which means you'll need to "read between the lines," or look closer at the text to understand what's really happening. 21. "Girl" by Jamaica Kincaid "Girl," a mother tells her daughter how to live her life properly. The mother instructs the girl to do all the household chores, in very specific ways, making it seem like that's her only duty in life.Sometimes the mother tells the girl how to attract attention, not to talk to boys and to always keep away from men. Other times, the mother thinks that the girl will need to be attractive to men to live a good life. This story doesn't feel like a story. There's no plot, and nothing really happens. But read closely, and you'll see an important message about how girls are taught to live restricted lives since childhood. 22. "Rikki-Tikki-Tavi" by Rudyard Kipling "Rikki-Tikki-Tavi" is a classic tale about a mongoose who regularly visits a family in India. The family feeds him and lets him explore their house, but they worry that he might bite their son, Teddy.One day, when a snake is about to attack Teddy, the mongoose kills it. This event helps the family accept the mongoose into their family.This is a simple story about humans and animals living together as friends. It's old, but the language is fairly easy to understand. It reminds us that animals can also experience feelings of love and, like humans, they will also protect the ones they love. "Rikki-Tikki-Tavi" is part of Kipling's short story collection "The Jungle Book," which was famously made into a movie by Disney. 23. Excerpt from "Little Dorrit" by Charles DickensDorrit is a child whose father has been in prison ever since she could remember. Unable to pay their debts, the whole family is forced to spend their days in a cell. Dorrit dreams of seeing the world outside their little cell.This excerpt (short part of a larger work) introduces you to the family and their life in prison. The novel is about how they manage to get out and how Dorrit never forgets the kindness of the people who helped her.Injustice in law is often reserved for the poor. "Little Dorrit" shows the government jailing people for not being able to return their loans, a historical practice that you wish for! One man finds this out the hard way when he brings a magical monkey's paw home from India. This paw is supposed to grant three wishes to three people. People start to wish on it, only to realize that our wishes can have severe consequences.The characters in this story immediately regret when their wishes come true. Even though they get what they wanted, it comes at a large cost!This short story is from the early 1900s and uses some outdated English, but it's still easy to follow. It reminds us that there are no shortcuts in life, and to be wary if something seems too good to be true. 29. "A Tiny Feast" by Chris AdrianThis story centers around Titania and Oberon, two fairy characters from Shakespeare's famous play, "A Midsummer Night's Dream." The two fairies are having a rough time in their marriage when they find a human child. They decide to adopt him, hoping that he'll help them save their relationship. However, the child develops a deadly, modern disease and the fairies have no idea what to do since they have never known illness or death.This is a tragic tale about how they try to understand something they've never seen before and their deep love for a stranger who is so unlike them. The story explores the grief of parenthood and the uncertainty of knowing whether your child will ever even know you. 30. "The Story of an Hour" by Kate ChopinThis story, written by a woman, is a sad look inside an unhappy marriage. Mrs. Mallard is a woman with heart troubles. When her husband dies, the people who come to give her this news tell it to her gently, so she doesn't have a shock.Mrs. Mallard busts into tears and locks herself in her room. At first, she's upset by the news. But the more she considers it, the more excited she becomes about the idea of the freedom that would come from her husband's death.What happens, then, when her husband comes home after an hour, alive and well?The story explores the conflicting range of the human emotions of grief and hope in a short span, and the impact it can have on a person's mind and body. 31. "The Zero Meter Diving Team" by Jim ShepherdThe Chernobyl nuclear disaster was one of the deadliest accidents of the twentieth century. This is a story about that event seen through the eyes of a father and his sons, who were all unfortunate enough to be close to the disaster area.The story exposes the whole system of corruption that led to a massive explosion taking innocent lives and poisoning multiple generations. The technical vocabulary and foreign words make this text a little more difficult. However, its plot is relatively easy to follow.The story is divided into small parts that make it both easy and exciting to read. Its various events show what it was like to live in the former Soviet Union. And just like any other good story, it's also about human relationships and how they change due to historic events. 32. "The Velvetreen Rabbit" by Margery Williams simple, stuffed rabbit toy is given to a young boy as a Christmas present. At first, the rabbit isn't noticed, as the boy is distracted by much fancier gifts. While being ignored, the rabbit begins to wonder what it means to be "real."One day, a certain event brings the rabbit into contact with the boy, and changes the toy's life forever.Have you ever loved a toy or doll so much that you treated it as if it were alive? This story shows the power of love from a very unexpected viewpoint: that of a fluffy stuffed rabbit. It also highlights the importance of self-value, being true to yourself and finding strength in those who love you. 33. "The Friday Everything Changed" by Anne HartTradition is important in this school, where the boys always go to fetch water for the class. The girls are teased for being "brave" and are last to get other privileges, like having the first choice of magazines. One day, a girl asks the teacher why girls aren't allowed to get the water, as well. This one question causes a big reaction and leads to a huge change.The girl's courage surprises everyone, but it also inspires other girls to stand up for themselves. One act from one brave person can lead to change and inspire others. The story reflects on gender equality and how important it is to fight for fairness. Just because something is accepted as "normal," doesn't mean it is right! 34. "Hills Like White Elephants" by Ernest HemingwayAt a Spanish train station, an American man and a young woman wait for a train that would take them to the city of Madrid. The woman sees some faraway hills and compares them to "white elephants." This starts a conversation between the two of them, but what they discuss seems to have a deeper meaning. This is another very well-known story that asks you to "read between the lines" to find the hidden meaning behind the text. Much of the story is a back-and-forth dialogue between two people, but you can tell a lot about them just from what they say to each other. There's a lot of symbolism that you can analyze in this story, along with context clues. Once you realize what the real topic of the characters' conversation is, you can figure out the quiet, sadder meaning behind it. How to Use Short Stories to Improve Your EnglishShort stories are effective in helping English learners to practice all four aspects of language learning: reading, writing, listening and speaking. Here's how you can make the most out of short stories as an English learner: Use illustrations to enhance your experience: Some short stories come with illustrations that you can use to guess what the story is about. You can even write your own caption or description of the picture. When you finish the story, go back to your image description. How did you do?Listen to recordings of stories: Here in the digital age, it's possible to find wonderful short stories online in audio or video form. If you find a video with English-language subtitles, you can read while also listening to how a native speaker pronounces words.FluentU has a few short story videos paired with learning tools, as well as many other options for training your listening and reading skills.Explore stories related to a theme: Do you like ghost stories? Science fiction? Romance? If you're learning about food or cooking, find a short story with a lot of food vocabulary.Choose the right reading level: Make sure that you always challenge yourself! One easy way to tell if a story is just right for you is to use the "five-finger test." Hold up your fist as you read a paragraph, and put up one finger for each word you don't know. If you have all five fingers up before the end of the paragraph, try to find an easier text.Practice "active reading": Your reading will only help you learn if you read actively. You're reading actively when you're paying very close attention to the story, its words and its meanings. Writing with a notebook nearby and in a place with no distractions can help you focus on active reading.Choose only a few words to look up: You may be tempted to stop at every unknown word, but it's actually better to try to figure out its meaning from context clues. This means looking at everything else in the sentence or paragraph to try and guess the meaning of the word. Only look up words that you can't figure out even with context clues.Summarize the story: When you've finished reading the story, retell it in your own words or write a summary of it. This will help you to practice any new words you learned, and make sure that you understood the story well. If you're struggling, read the story again and take notes as you read.Take breaks: Just because these stories are short, doesn't mean you need to read them in one sitting! If you find it hard to focus or you're struggling to understand the story, take a break. It's okay to read it one paragraph at a time.Discuss the stories with others: Talk about the story with your teacher, classmates, language partners or friends. If there's something you don't understand, write down your questions to ask during the discussion. Share your own opinions about the language, culture and messages within the story.If you want more people to talk to about the stories, try joining an online book group! For example, Goodreads has a few groups that specifically focus on reading and discussing short stories.I hope you have fun with these English short stories while improving your English language skills.Happy reading!
