Mechanical Design Engineer Salary Range Among mechanical design engineers, Fresher Mechanical Design Engineers tend to have the lowest salaries, while more experienced workers like Senior Mechanical Design Engineers enjoy the highest salaries. Mechanical Design Engineer - Salary Differences | JobSalaryDifference Senior Mechanical Design Engineer 599k/year +64% Fresher Mechanical Design Engineer 163k/year -55% Mechanical Design Engineer - Pay by Experience Level An Entry Level Mechanical Design Engineer with less than three years of experience can expect to earn an average total compensation of 1,66,300. A mid career Mechanical Design Engineer with 4-9 years of experience earns an average total compensation of 3,47,900, while a Senior Mechanical Design Engineer with 10-20 years of experience makes on average 5,93,000. Mechanical Design Engineers with more than 20 years of experience earn 6,89,100 on average. How Work Experience Affects the Salary of a Mechanical Design Engineer Late Career +91% Senior +64% Average Salary 3,61,600/year Mid Career -4% Entry Level -54% Gender Breakdown Mechanical Design Engineer - Related Salaries The salary information presented on this page is based on all Mechanical Design Engineer jobs published on Jobted in the last 12 months. Dont miss out on new job vacancies! Create a job alert for: Mechanical Design Engineer How much does a Mechanical Design Engineer make in India? A Mechanical Design Engineer in India earns an average of 3,61,600 gross per year, which is about 30,135 net per month. Everything you need to know about the salary of the Mechanical Design Engineer updated to 2025. What is the highest salary for a Mechanical Design Engineer in India? 858,534 Avg. Base Salary (INR) The average salary for a Senior Mechanical Engineer is 858,534 in 2025 63 - 275k EXPLORE BY: An entry-level Senior Mechanical Engineer with less than 1 year experience can expect to earn an average total compensation (includes tips, bonus, and overtime pay) of 581,748 based on 13 salaries. An early career Senior Mechanical Engineer with 1-4 years of experience earns an average total compensation of 670,399 based on Read more A senior mechanical engineer creates and improves mechanical and electrical systems for products. The engineer will be present for the planning, design, and development processes until the product is produced. Some parts of the products that are made by a mechanical engineer are the mechanical components, circuit boards, sensors, and electrical parts. Prototypes of designs will be created and tested by the mechanical engineer and the team, in order to make sure that the product operates as it Read more Our data indicates that the highest pay for a Senior Mechanical Engineer is 2m / year What is the lowest pay for Senior Mechanical Engineers? Our data indicates that the lowest pay for a Senior Mechanical Engineer is 380k / year How can Senior Mechanical Engineers increase their salary? Increasing your pay as a Senior Mechanical Engineer is possible in different ways. Change of employer: Consider a career move to a new employer that is willing to pay higher for your skills. Level of Education: Gaining advanced degrees may allow this role to increase their income potential and qualify for promotions. Managing Experience: If you are a Senior Mechanical Engineer that oversees more junior Senior Mechanical Engineers, this experience can increase the likelihood to earn more. 776,674 Avg. Base Salary (INR) The average salary for a Senior Mechanical Design Engineer is 776,674 in 2025 2k - 410k EXPLORE BY: An entry-level Senior Mechanical Design Engineer with less than 1 year experience can expect to earn an average total compensation (includes tips, bonus, and overtime pay) of 500,000 based on 6 salaries. An early career Senior Mechanical Design Engineer with 1-4 years of experience earns an average total compensation of Read more Senior mechanical design engineers are involved in the development and creation of mechanical parts, machine tools, and equipment or components and may also work on existing equipment and mechanical processes, usually to improve existing designs or correct recurring faults. Because this job carries a senior-level designation, they are typically team or group leaders who direct the work of other members of a mechanical design team. These teams may consist of junior design engineers as well as Read more Our data indicates that the highest pay for a Senior Mechanical Design Engineer is 1m / year What is the lowest pay for Senior Mechanical Design Engineers? Our data indicates that the lowest pay for a Senior Mechanical Design Engineer is 370k / year How can Senior Mechanical Design Engineers increase their salary? Increasing your pay as a Senior Mechanical Design Engineer is possible in different ways. Change of employer: Consider a career move to a new employer that is willing to pay higher for your skills. Level of Education: Gaining advanced degrees may allow this role to increase their income potential and qualify for promotions. Managing Experience: If you are a Senior Mechanical Design Engineer that oversees more junior Senior Mechanical Design Engineers, this experience can increase the likelihood to earn more.
