## Properties of 2d shapes worksheet year 3

Welcome to our 2d Shapes Worksheets! We offer a wide range of worksheets, including symmetry, naming shapes, shape riddles and puzzles, and properties of 2d shapes. Suitable for kids from Kindergarten to 5th grade, our worksheets cover different levels and sections: Kindergarten, 1st Grade, 2nd Grade, 3rd Grade, 4th Grade, and 5th Grade. Each section focuses on identifying, naming, and solving problems involving 2d shapes. Our geometry worksheets also feature clipart for printable 2d shape diagrams, online quizzes to help develop naming and identifying skills, and support sheets for finding and naming the parts of a circle. These worksheets will help your child: know the properties of various 2d shapes; recognize that some shapes can be described as other shapes, such as a square being a rhombus; understand right angles, parallel lines, and lines of symmetry; develop their geometric reasoning skills. We offer practice worksheets and an online quiz to help you identify various 2D shapes, including triangles. To print or save these sheets easily, follow our 3-step guide. Additionally, sign up for our newsletter to receive free math support and a seasonal grab pack every month. Our Math Salamanders team hopes you enjoy using these free printable worksheets and other math games and resources. If you have any questions, feel free to contact us through the 'Contact Us' tab on our website.
